

## Matrix Blast Hole Drill Steel Data Table

Drill Steel O.D.	Midbody Wall Thickness	Weight lbs. per foot (respective to wall thickness)
A	B	C
3.5"	0.375"	14
4.0"	0.375", 0.50"	15, 19
4.5"	0.375", 0.50"	16, 22
5.0"	0.50", 0.75"	24, 34
5.5"	0.50", 0.75"	27, 38
6.0"	0.50", 0.75"	35, 43
6.25"	0.75"	44
6.5"	0.75"	48
7.0"	0.75", 1.0"	50, 64
7.625"	0.75", 1.0"	56
8.625"	1.0", 1.5"	82, 114
9.25"	1.0"	88
10.75"	1.0", 1.5", 2.0"	104, 148, 187
12.75"	1.0"	126
13.375"	1.0", 1.5", 2.0"	148, 184, 224

Matrix manufactures breakout flats and tooling configurations to fit all major drill brands. Drill steel lengths are produced to customer's specifications. We offer a choice of threaded connections including API Regular, Full Hole, I.F., and BECO. Matrix Blast Hole Drill Steel can be produced with standard or alloy midbody to suit each customer's requirements.
